CrossFit Level 1 – For students at an entry skill level and entry fitness level. Time on the Baseline Workout time is slower than 8 minutes. Many movements that are done in a gym and/or in CrossFit are unfamiliar. Class focus is on basic conditioning and movement skill and technique.

Intro 1 – Your first encounter with CrossFit. Intro 1 is a one on one training session with a CrossFit Coach that concludes with your very first WOD (Workout of the Day) The Baseline Workout. Our goal is to give you "A taste of the Kool-Aid," not drown you in it.

CrossFit Level 2 – Not a beginner, but still working on building a base level of strength and conditioning and technical expertise. Baseline Workout time is between 5:30 – 8:00. Familiar with the names of movements, but still unsure of the amount of weight to use, and exactly how to do many of the more complex CrossFit movements.

Intro 2 – Your second encounter with CrossFit. Now that you've had a taste, we pick up the pace with a slightly tougher workout than Intro 1.

CrossFit Level 3 – Confidence, strength and conditioning are stronger than ever. Have mastered all of the basic and intermediate CrossFit movements and are working on the more advanced weightlifting and gymnastic movements. Can take a friend through a CrossFit workout with confidence. Pull ups are done without assistance and Baseline time is between 4:30 – 6:00.

Cardio Kickboxing– You will have a blast in this kick butt cardio workout! Learn basic punches, kicks and combinations. No experience necessary.

Elements A – A class for the CrossFit beginner and ever evolving pro alike. Elements A covers: What is CrossFit? CrossFit's origins, Use of "Functional Movements," Movements: Air Squat, FS, OHS, DL, Press, PP, and Stretching 101/Rest Recovery.

Triple Play– The best of both worlds: cardio and sculpting. Equally train your cardiovascular system while sculpting your lower and upper body with hand weights. A fantastic interval class.

Elements B – The perfect follow-up to Elements A. This class includes: What is Fitness? Nutrition: Paleo, Zone, Zoleo, 0 General Physical Skills, Push-Jerk, SDHP, MB Clean, and Graduation WOD.

Jump-N-Jab– A real calorie scorcher! Intervals of jump rope and basic cardio kickboxing. You DO NOT have to be an expert roper to take this class. In fact, no rope required!
